

## FOOD SAFETY POLICY

- Arava Export Growers Ltd. hereby declares its commitment to market sound and safe fresh produce at an outstanding quality; in compliance with the most rigorous standards:
- **ISO 9001, ISO 22000 , GLOBALG.A.P , Tesco Nurture ,GRASP , SEDEX ,and HACCP principles.**
- Arava Export Growers Ltd. is devoted to provide the growers with all the information needed to meet with the relevant standards, and to comply with the international and domestic laws. Arava Export Growers Ltd will conduct periodically internal audits among the growers., in addition to the external audits.
- Arava Export Growers Ltd. supplies fresh produce as a final product and/or as raw material to the customer.
- Arava Export Growers Ltd. is committed to supply safe products, in compliance with both the EU MRL regulations and specific customers requirements. Arava Export Growers Ltd. instructs the growers on how to minimize pesticides and how to use pesticides in a secure manner. Only approved pesticides can be used for either domestic or destination markets. Pesticides protocols rely on continuous monitoring; therefore most growers utilize the same software tracing system, allowing the Company to rigorously supervise pesticides applications. Arava Export Growers Ltd. has implemented organic methods on conventional products, as well as Integrated Pest Management methods, to reduce the pesticides applications.
- Arava Export Growers Ltd. is committed to deliver safe and hygienic produce; free from physical and microbiological contamination. The Company conducts regular laboratory analyses and by implements stringent staff hygiene and produce handling regulations, at the growing fields and at the packing houses.
- Arava Export Growers Ltd. is committed to supply to any interested party, with all relevant food safety information.
- Arava Export Growers Ltd. is committed, following the CEO approval, to implement a recall procedure, in any situation that a risk might accrue.
